

25X1A6a

Projects Review Committee

1 July 1953

Comptroller

Electric Power Facilities at the [REDACTED]

25X1A6a

1. This proposal requests additional funds in the amount of \$33,000 for the following two purposes:

- a. To increase commercial and standby electric power facilities at [REDACTED] estimated at \$15,000; and
- b. Purchase of equipment from the utility companies and provide standby power to all facilities at [REDACTED] estimated at \$18,000.

2. To date the sum of \$27,000 has been paid to the Virginia Electric Company for power since inception of [REDACTED]

3. No funds were budgeted in the 1954 budget for this purpose.

4. In view of the present status of the appropriations of funds for use of the Agency during the fiscal year 1954, it is not believed that funds could be approved for this purpose at this time since it is a new project. It is recommended that this project be deferred until such time as a complete review of needs and availability of funds can be completed.
